___ has been certified by the Texas Department of Insurance as an Independent Review Organization. The Texas Worker's Compensation Commission has assigned this case to ___ for independent review in accordance with TWCC Rule 133.308 which allows for medical dispute resolution by an IRO.

___ has performed an independent review of the proposed care to determine if the adverse determination was appropriate. In performing this review, all relevant medical records and documentation utilized to make the adverse determination, along with any documentation and written information submitted, was reviewed.

The independent review was performed by a matched peer with the treating doctor. This case was reviewed by a licensed Medical Doctor with a specialty and board certification in Physical Medicine and Rehabilitation. The ___ health care professional has signed a certification statement stating that no known conflicts of interest exist between the reviewer and any of the treating doctors or providers or any of the doctors or providers who reviewed the case for a determination prior to the referral to ___ for independent review. In addition, the reviewer has certified that the review was performed without bias for or against any party to the dispute.

CLINICAL HISTORY

This patient was approximately 29 years of age and working for the ___ as an LVN when she sustained an injury at work on ___. While moving a patient, she had the onset of low back pain syndrome and some radicular symptoms. In September 2000 she had lumbar laminectomy surgery in ___.

Since then, ___ has been followed by ___, a neurologist in ___. She had MRI studies on 10/26/01 that revealed some DJD changes, also some post-surgical changes at L5/S1, and some right L1 nerve root slight encroachment. She also had EMG studies showing some chronic right L1 radiculopathy changes. She has had multiple epidural and facet injection procedures with varying degrees of result, but basically has continued with a residual, ongoing pain syndrome that has been treated non-surgically with the injections, medications and other therapies.

REQUESTED SERVICE

A lumbar MRI and lumbar EMG/NCV/BLE are requested for this patient.

DECISION

The reviewer agrees with the prior adverse determination.

BASIS FOR THE DECISION

The requested repeat lumbar MRI and lumbar and lower extremity EMG/nerve conduction studies are not indicated at this time. The record shows that there have not been significant new clinical changes. The requested procedures would only possibly indicated if the patient was strongly considering further surgery, however the record does not show this to be the case.

___ has performed an independent review solely to determine the medical necessity of the health services that are the subject of the review. ___ has made no determinations regarding benefits available under the injured employee's policy.

As an officer of ___, I certify that there is no known conflict between the reviewer, ___ and/or any officer/employee of the IRO with any person or entity that is a party to the dispute.

___ is forwarding by mail and, in the case of time sensitive matters by facsimile, a copy of this finding to the treating doctor, payor and/or URA, patient and the TWCC.

Sincerely,
